THE BACCARAT SCANDAL. The trial going on in London over the

card scandal at the country house of an English gentleman is one in which there are ing what should be the dearest thing on earth to him as a soldier and a gentleman, his honor. Charged by no less than four having cheated at cards his future social career is irreparably ruined unless he can have the charges declared false.

GORDON-CUMMING has done distinguished service in the army, and belongs to several swell clubs. It is easy to understand what this charge is to him. But what lends special interest to the case is the presence of the Prince of Wales in court as a wit-

The revelations of the trial are not pleasant ones for any of the parties concerned, but they are taken in with infinite relish by a packed gathering of Court scandal lovers, who esteem the holding of tickets of admission a privilege almost beyond price. To the Prince, least of all, is this publicity concerning affairs at a private gaming table a welcome thing. Put be faces the crisis with true British stolldity, and is promptly ready for the wit-

NEW WORK FOR CONVICTS.

The interesting announcement is made of a new industry for convicts, which has been started at Sing Sing Prison and will, it is said, if successful there, be established in the other prisons of the State, Warden BROWN has expressed some confidence that if the plant prove a success it will solve the long agitated question as to the right and wrong of prison labor.

The branch of work referred to is known as the brush-fibre industry, and consists principally in converting bales of tampico, horses' tails, hogs' bristles, &c., into proper condition to be sold to brush manuers. The raw materials are purchased from wholesalers in New York.

This brush material, the Warden says, is nearly all prepared in England and Germany, and the material is imported princi pally in a condition ready for the manufac turers. It is this fact which leads to the Warden's confidence, expressed above, as the industry cannot be claimed as an interference with outside labor. The outcome of the experimental plant will be watched for with interest. About thirty men are at present employed.

TREASURE HUNTERS.

That opulent pirate, Capt. Kinn, would have spared a greedy and imaginative generation much useless labor if he had willed all his money to some infant asylum and it had been paid over. The search for his treasures breaks out with mournful fre-

Three dupes have been digging around Montauk Point, thinking they had a straight tip to pots of this gold. They didn't strike it. Perhaps they will go to work now, getting treasure by doing an honest joi

The desire to get riches without work is too common a one. Most of our rich men are examples that wealth is the fruit of the hardest kind of industry, but their example is nothing compared to Captain Kipp's buried gold. The lazybones who seek this good fortune for themselves are, of course, the last who deserve any such streak of luck, and it is a comfort that they do not strike any bidden treasures.

The Yale student and Barnum's circus came together in New Haven with nearly disastrous results. Torpedoes in quantities were pelted at the animals. The large bulk of the elephants made them good targets, and the torpedoes snapped well on the tough, smooth hide. But it gave one of the huge creatures hysteries, and he ran among the crowd. Happily the keeper hooked him back before he could do any damage. When the college boys saw this danger they had sense enough to stop, which is worthy of

The Church Militant seems to be entering onto an unusually militant phase. sters are coming forth with their views in spite of angry opposition. In a small New York town lately a person who had been ejected from his pulpit by the trustees made a break for it at the next meeting and invisted on conducting services right in the testh of his rival. He was arrested for disturbing a religious meeting. Sr. Paul was pivity combative, but he could hardly approve of rowing in open church.

The wild bay of the East is never enturely extirpated, but there is no reason why every effort should not be made to stamp him out. A little fourteen-year-old tough who was kindled to during deeds by bad literature and bad beer went out in a hoat Des and shot at three other boys. He then shot at everybody who tried to arrest him, but was finally bagged. Make it good and strong for the youngster. He needs a pow-

A morning paper proclaims to-day in its headlines that in the baccarat case " Lord Chief Justice Columnium Begs the Lawyers 5, and or co. Prepared by C. L. Hood & Co., Strength is sold by all druggiess. Not to Keep the Prince of Walms in Court

Longer Than Possible." This opens not only the interesting question of how long it would be possible to confine England's future ruler to a court-room, but the equally absorbing problem as to what measures would be required to keep the Prince there after it became impossible to do so. Supposing for a moment that the lawyers should digregard the Jusice's reasonable request?

The Chinese process of dealing with its Hall Park awoke and asked of a boy runofficial representatives who are found ning past: guilty of misbehaving themselves abroad is summary, but should be effective. One of these gentlemen, accused of undue extravagance and some financial irregulari-Vol. 31...... No. 10,878 ties while living in Paris, has been called home and condemned to death. > The son of a well-to-do farmer has bee caught thieving at the college where he was studying. His excuse was that evil spirits beset and urged him to it and he could not resist. It is not improbable that the devil had a good deal to do with stirring him up to it, but then he must not say he could not help yielding. This would excuse any rime. He should have fought the devi and remained honest.

"I am going to shoot you, " said young Louisa GRIM to her father's hired man, very serious issues involved. The plaintiff, down in a little Pennsylvania town. Then, Sir WILLIAM GORDON-CUMMING, is defend- much to her own surprise, she did as she had said she would. It was another case of the shotgun and the didn't know it was loaded. The moral of such accidents has or five persons, reputed gentlefolk, with got to be so plain and common that no onseems ever to stop to read it.

Respect to women is essential to a police man. Whatever may be said when he flirts with a woman who has precipitated it, to force attentions and to make free with a respectable woman who has given no occasion whatever for it ought to cost him dearly. A Chicago policeman has been dismissed for this offense. This speaks well for Chicago.

To morrow is the day set by the Railroad Commissioners for the first open meeting on the subject of tunnel light and ventilation. It should make a good beginning towards a great work.

President Marsu, of Philadelphia's Keystone Bank, is still out of sight, as his bank ing methods used to be.

At this unusual night session many of the older pupils were present, and the instruction given must have surprised the Prevention Far Better Than Cure for parents as much as the boys and girls. The doctor told his audience several

before unheard-of things-for instance, that | Turkoman curtains for her child's throat. most of the general diseases result from that many infectious diseases were prevent. | the funeral the hard-earned draperies were able; that a person in good bodily condition sent back to the second hand shop. could resist both contagion and infection; that it was easier and better in many ways to disease, the little throats need examining prevent illness than to cure it; that the and germs of disease should be destroyed younger the child the more susceptible it as soon as their presence is detected. would be to disease, and that only the very, very rich people could afford the luxury of to stay, and the individual interest of the being sick and the morally strong of bear- public is needed for its maintenance ing the suffering it entailed.

New York City from diphtheria, a discase ens the development of the insidious as much to be dreaded by the community microbes, at large and as vigilantly fought by the City Board of Health as typhus fever; he carry the gospel of health into the tenement told them that the disease was not only districts, and if each reader contributes contagious, but frightful - hence to be one-hundredth part of 1 per cent., the good watched and feared.

He told the mothers and fathers and the ooys and girls to wash all over every morning, in cool water; that the bath did not for the Sick Babies' Fund, and sincerely hope it will help them. Roying to send some more money soon, STENET STROUGE. call for a tierce of water or a plunge; that it need not take over one minute, and that it would, by putting the sain in a good condition, be a protection against colds. If any one was so delicate-and there are

many-he could not stand even a minute's bath in cold water, he advised washing half the body in the morning before going out and the other half on going to bed. This would have the same result-that of keeping clean and healthy the organ that regulates the heat of the body.

children it was absolutely necessary to wash out the nose, clean the ears and gargie the throat every morning in the year three things of great importance that are neglected by the majority of people through their entire lives and which many times dinary to think that she should have been led cause the habit of taking cold.

He told them to wear a light weight of woollen next to the skin the whole year, in work of a J. B. Runnion, who, judging from lined with a cheaper fabric, cannot be bought order to absorb the invisible perspiration as well as the perceptible, and as the weather varied to increase or diminish the mend him to swiftly pursue eith r of these warmth of clothing, wraps and coats. He said that flax, linen, silk and cotton cloths know what plays are. The avowed intention were composed of straight threads, of "him Manning" is to present a hoyden, which, worn next to the body, clung to it absorbing its heat and allowing too rapid tion that she shall marry before she is twentyevaporation from the skin, while the woollen fabric, composed of spiral, curling fibres of much elasticity, kept a certain distance from the body, and, being also close- as targets for the heroine to aim her foolish lined, was a better conductor of heat than any of the other fabrics.

He told them of the folly of bundling up their necks, there being no cold in that organ; of wearing chest protectors and liver pads, and the evil results of wearing thin-soled shoes and a hundred other wise and useful things, the knowledge of which many persons would gladly have paid a dollar to hear.

Dr. Torek has been preaching just this receive special and regular instruction in sort of doctrine right along to the teachers at the institute and to the pupils and parents individually. He thinks health such a precious thing that the people should be taught how to obtain it if they are ill and how to retain it if well. His object is to for general use, as exemplified in the Workingmen's School.

Just now he is studying the little dressing-rooms or wardrobes where the children hang their hats, caps, jackets, coats and If it is not practicable to give parents on the stage always wear dressing as far apart as space will permit;

the rooms be ventilating during the whole session, and that every evening clean water, and directed by the assistant the floor, walls and pegs by a brushing with water in which corrosive sublimate is dissolved. This peison will kill the germs and leave the place a clean and safe repository for the little wraps.

Now, what Dr. Torek is doing for the pupils, parents and teachers of the work swelling or the inflammation is the signal ingmen's school up in West Fifty-fourth street, THE EVENING WORLD'S Corps of Free Physicians intends to do for the work how slight the symptoms may be, with the ing people of New York who do not need child's full address. She can act sharmingly, how other heating spparatus, in which heat not ever, if she gets a playwright who will give only develops any germs of disease con-tained in the clothing but also rarefles the atmosphere and scatters them about. He it to say that Mr. Weston sneezed very realthe cast it is not necessary to speak. Suffice thinks the packing and piling of wraps, one istically, and that John A. Ellsier was a nice, on top of the other, is equally bad. ALAN DALE.

VACRANT VERSES.

To pur the favor of the world, its notice and its thought. Be swift of foet and swiftly put A nickel in the slot. Fate's until-fruttl lies concealed 'Neath iron locks hard wrought, And you must stop and gently drop A nickel in the slot.

To gain the chewing gum of fame
Don't idly wast around
For the thing to start and fall apart
And spill it on the ground;
For the machine is stout and strong
Of toughest from wrought.
March up and stop and gently drop
A nickel in the siot. A nickel in the slot.
The sweet pertunery of love
Larks in the bus machine.
But its fragrant flaver and sunny say
Are firmly locked, I weet.
So in not stand and rainly sigh.
Firm reced to the spet;
Be swift of foot and gently put
A nickel int he slot.

The world is careful of its goods
And under look and key
It keeps them tight concealed from sight,
Away from you and me;
But there's a way to get them all,
The whole strong guarded lot,
If we just stop and gently drop
A nitzed in the slot. — Fankes Blade.

A Spring Poem. A Spring Foem.

Pregot to buy a straw hat soon:
I need some Summer ties,
And one or two imported suirts—
some flannel ones likewise:
Not only this, but biasers, too,
A and of Summer others,
Some range-colored love.
And that is why at present
it was issee me to say.

Wide ribbons are noticeable on many of the extra rest in which to recruit after the parada newest bata. Small shapes are preferred for general wear, and larger ones for dressy and they were turned on at 7 matend of 6 o'clock mid-symmer use. A new toque has a pointed in the evening. They were probably a pretty crope are stylish, with velvet ribbon knots at midnight. A three or four hours' walk at back and front, on low toques,

A tailor-made jacket for a woman, slik lined dinary to think that she should have been led that fits like a charm, can be ordered for \$35. to present such a decaying specimen of dra- A top-cost of the Kate Greenaway cut for a matic foliage as "Miss Manning." It is the two-year-old child, made of India silk and his silusions, seems to know a good deal about in a New York store for less than \$15. Verily, washing clothes and digging graves. In the a baby is a dear, precious thing to have about

The sliver-handled umbrella has had its day Now the woman of taste carries a natural wood stick of light weight, with a Dresden china ball or knob at the end. The change is

The great Western educational institutions are not behind those of the East in their recognition of woman's work. Mrs. Mary Lowe Dickinson, well known for her years of good work in literary, philanthropic and educations fields, has held for two years the professorship of English Literature in the University of Den ver. The chair has recently received an endowment of \$50,000 from ex-Gov. Evans, President of the Board of Trustees, and though Mrs. Dickinson's health forbade her to resume her work this year the chair has been named the Mary Lowe Dickinson Chair of

Every Toursday evening the Endeavor Club of working girls meet at 59 Morton street and nave a General Discussion. Here are some of the questions discussed recently; " Shall the The Needs of Police Matrons; the Bilver Ques tion, and What would you do for New York if you were despot for a year?" Who says the

Lace is too dainty and effective for Summe wear to be lightly discarded, and although entire gowns of deep lace are no longer is mode, yet lace from nine to eighteen inches wide will figure largely on Summer gowns.

write on the subject of Bucharest for a great which is now being prepared in Paris. This is will be treated by hime. Adam and Tokio by Judith Gautier.

There is a dry-goods shop in Sixth avenu where 1,000 glasses of hot water are sold every week to the customers who are under tre ment for adipose tissue or dyspepsia.

Only one baby in five passes his tenth birthday and one in three lives to be sweet sixteen This is an awfully hard season for the woman

of limited means for the reason that a radical change has come over dresses. Wraps and connets. There is nothing in the wardro purchased in the last seven years, that can be worn on the street with comfort ar stance, of a good dress made in 1896, and its low collar, tight sleeves, thick wast, broad back, side gores and full skirs, to peace of mind. Take the waist, for incover the tournure or extender, is like a relie of the last century. The skirt is even work with its drapery, bouffant hips, ankle depth and shoe scraping braid. Moral-don't buy dresses to hang in the closet. Now that the season is settled and the standard of taste es tablished, there are many points that the moderately fashionable women can take ad-vantage of. To begin with, the "dipping" skirt has been called in from the street That is positive, definite and rollable information. The sensational women-those who incline to the outre who have a morbid desire to attract strention and who delight in being gazed at and stared at by the multitude go on trailing good material over the dust and filth of the public highway, but the women inuate refinement, whose very presence is an argument of the goddiness of cleanliness, will not, even for lashlon's sake, tolerate the dip FURNITURE BARGAINS. for outdoor wear. The days of blind obedience to La Mode have gone by and rationalism has aprung up that enable every devotee to repudiate whatever seems ALL SPRING GOODS MUST GO impertinent in the form of workship. In the deluged with newly made dresses marked make them go quickly, modifications settle the matter.

Now, if you are going to have a dress, one good dress, prettily made, that must do duty have it touch ground all round and lay one

the police parade to come along, when sading told by one of THE EVENING WORLD Fads, Fashions and Fanoies That dealy a tall man grabbed a fellow by the throat and cried "Officer!" The face and exceedingly embarrassed. "You've got my watch," exclaimed the tall man who held him. In an instant almost a man in plain clothes gropped out from somewhere and also less nands on the map. "There's your waten!" said the fellow, and sure enough the chain was daugling from the man's waistcoat. * Well, you tried to steal it anyhow," was the answer, and the three walked off together to the station.

It seams that the police only got one hour tired lot of policemen was sought their home marching gait for a stout man is pretty tiring.

A pair of those big Normandy horses going under an "L" train yesterday got quite excited and frightened. Generally they are so calm and dignified that it was a novelty to see them starting and tossing their heads. They are huge, good-natured beasts.

I see that Mrs. Russell Harrison has arrived in town and will sail to-morrow on the Teu-tonic. Mrs. McKee, who has the honor of being the mother of that marvellous child, will lso go to Europe on the Tentonic. The Berkeley School has closing exercises

this week, and then those of the class of '91 who intend to go to college will be left to crack along till the end of this month in preparation for their examination. Warm weather and vacation are good reliable signs of Summer. The tall yellow tower of the new Madison

Square Garden presents an imposing sight to the Broadway promenader as it looms up in all its massive proportions above the dense foliage of the trees in the park. The building itself is entirely hidden from view from the west side of the park, but the glimpse of tower is suffcient to suggest its buge structure. Hundreds mire the handsome arcade and grow enthust. astic over the architectural beauties of the building. Just at present its front is disfigured by the big painted sign-boards which announce the entertainment that is furnished within, Architects say that it is a structure of which New York may well be proud.

Some of the steamship companies seem to be put to as much ingenuity in inventing names for their new vessels as the owners of popular racing stables are to select something original in the way of names for their flyers. The White Star Company calls its new twin-screw freighter the Tauric, which, presumably, has fact that the vessel is designed especially for
